NIMBLE GREEK IN WILD DANCE.

Picnic at Schutzen Park
Proves Happy Affair.

Spartan Athletes Compete in
Olympian Games.

John Balas Distances All His
Rivals in Agility.

Except for Dutch picnic tables and
a mad array of pink and green neck-
ties, this might have been Greece of a
thousand years ago.

Among the picturesque rolling hills
of Schutzen Park, swarthy Greeks
with glowing excited eyes leaped in the
very dances that were danced before
the Christian era.

As in the ancient days, a glorious
young Spartan contested in the
Olympian games, sweeping away victory
in every event.

In the insolence of his superb
strength, the young Spartan sank to
his knees and challenged all the other
Greeks to throw the heavy discus—
they to stand; he on his knees; and so
went it all.

This little drama occurred yesterday

HOW Consumption Is Cured

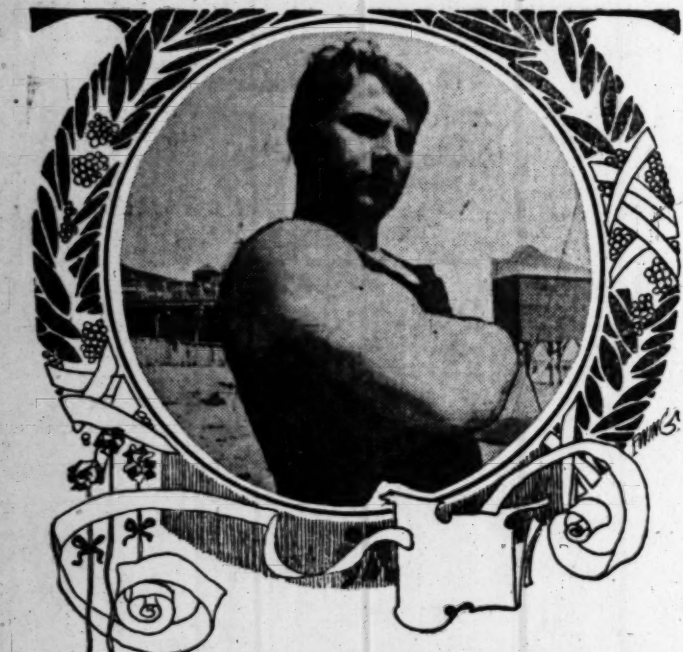

Under the Ballard method the
continuous application of antiseptic
to the lungs directly sterilizes
the danger of infection. The loath-
some, health-robbing, bacilli are
unable to find lodgment and thus
multiply, and the disease is in
this way arrested.

the dancers keeping up a peculiar
rhythmic, swinging step—a monotonous
sway, sway, sway, sway, step.
When women dance it, the Greeks say
it proceeds so decorously that one can
hardly see their feet move, the rhythm
of the dance being in the movement of
the bodies.

To each man by turn came the honor

John Balas, a young Spartan of amazing physical development.

at a picnic given by the Greek Benevo-
lent Association.

It was almost pathetic in one way.
There were about two hundred husky,
dark-eyed young Greeks, eager for a
good time, compelled to dance alone.
There were only two or three women
of their own race there.

GREEK WOMEN SCARCE

There are not above five or six wom-
en in the whole Greek colony here.
A pretty Greek girl came to San Fran-
cisco some time ago and was married
in three days.

Love-lorn, honest young Greeks of
this city have heard of a mysterious
and beautiful young Grecian maiden
who has just arrived in Los Angeles.
Being in mourning, she lives in close
seclusion; they can't find where. Each
Greek youth is eager to be the first to
lay his heart and his fruit stand at her
adored feet.

Happy the dances of ancient Greece
must have been largely "stag affairs."
They got through without any damsels.
They had an orchestra for playing
Bowerly two-steps, but the music to
which they danced the dances of old
Greece yesterday came from a squalid
clarinet, a violin and a guitar.

After a flowery speech from the
orator of the day, a curious walling
monotone struck up and all the men
joined hands in a long semicircular
line.

At the head of the line was the chief
dancer, supported by the "guide," who
evidently was there to restrain his ex-
citement.

Behind these came the long line of

of being the head dancer. Some of
them, in straw hats and "store
clothes," stepped out rather sheepishly
and capered very awkwardly and
shamefacedly.

EAGERLY AWAIT TURN
You could see others almost quiver-
ing with eager eyes awaiting their
turn.

To see your solemn and heavy-shod
peanut man edging along the polished
floor with finger tips beating the dis-
tant air like a prima donna, prout-
ting, twirling on his toe tips, whirling
with graceful abandon under the ex-
tended arm of the "guide"—well, it is
a shock.

Easily the best dancer was a very
dark, slender young Greek with white
tennis slippers.

When his turn came he gave a sig-
nal to the clarinet player and the mu-
sic changed to a wild bacchanalian Al-
banian dance.

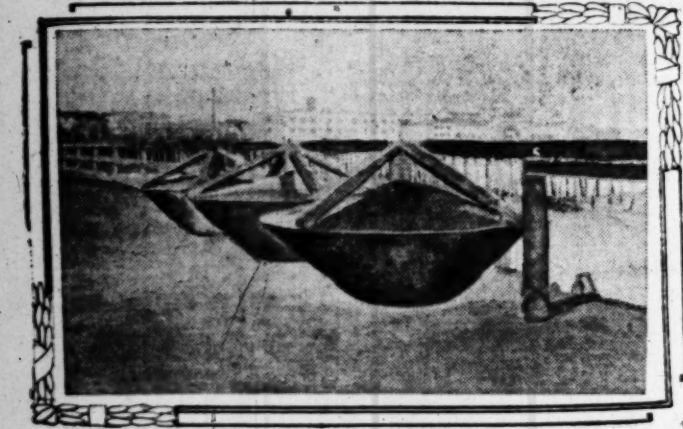

The man suddenly seemed to take
fire. Leaping high in the air, strik-
ing out his legs like a Cossack of the
steppes, cracking his feet together,
whirling suddenly round and round like
a spindle, falling back with delightful
grace until he and the "guide" walked
under the arch of their extended arms.

Just the tips of their fingers touching.
But alas for romance, one by one the
star dancers would laugh and come to
a stop, puffing, drop out to the line,
and light a cigar; then pursue a gob-
let of foaming German-lager beer.

Wave Motor to Tackle Ocean Problem.

Are the restless waves to be har-
nessed to do man's bidding and convert
into docile, tractable energy the
mighty power that is hourly going to
waste?

We shall see what we shall see.

Tomorrow, after having labored in-
dustriously for more than a year and a
half in the perfection of his mech-
anism and allied patents, Theodore
Rapp of Los Angeles expects to have
his wave motor completed and ready
for a practical test. The contrivance
has been built after months of weary
toil. The last bolts are being put in
place and the nuts tightened for the
crucial test. The motor occupies a pro-
tected position within the circle of the
new crescent pier at Ocean Park and
if it proves the success and devel-
ops the power expected by its creator
there will be a revolution in the world
of electricity. Power for all purposes
can then be produced so cheaply that
present expensive plants for the gen-
eration of electricity for commercial
uses will look like 20 cents.

Simply stated, Mr. Rapp's motor con-
sists of a series of heavy Russian iron
floats, each connected by means of a
perpendicular piston rod with a lever.
This lever, by means of a ratchet
clutch designed by Mr. Rapp, is expect-
ed to convert the perpendicular motion
of the rising and falling conical floats

into rotary motion. The main shaft is
made fast to the floor of the pier and is
equipped with balance wheels. There
are counter shafts and gearing that
transmit the lever's rotary motion to
the line shaft. There is a separate
gear apparatus for each float, and each
works independently of the other, al-
though all are connected in the same
manner with the main shaft.

When a rising wave causes the pis-
ton rod to rise, that rod in turn will
rotate the lever, engaging the upward
clutch and causing the gear wheel to
revolve. This motion will be con-
veyed by multiplied gear wheels to the
main shaft. As the float falls to a lower
level as the wave recedes, the upward
clutch releases its hold and the down-
ward clutch becomes engaged, and so on
with each succeeding wave and with
each of the floats.

The floats have a diameter of six feet
and are two feet and three inches high.
"The buoyancy will cause them, as the
inventor believes, to rise and fall with
the waves. The piston rods, constitut-
ing their load are twenty feet in length."

The Rapp Wave-Motor Company is a
Los Angeles concern, of which the
inventor of the device is the president.
Paid partners, vice-president, and H.
O. Rapp, secretary. They will all be
at the seaside bright and early Tues-
day to witness the harnessing of the
tide—if that feat is to be accomplished
by means of their mechanical ingenu-
ity.

Allover Embroideries at Half

Allover embroideries from our own regular stocks at exactly half our own regular prices. Of course they're single pieces and odd lengths, but always there's enough for an entire waist—the purpose for which they're expressly made. Their former prices will give you an idea of their manifestly high quality and exceptional value—from one to three or four dollars a yard, in 18 and 22-inch widths.
Fifty cents to one-fifty and two dollars a yard now.

Half Price for Sample Embd. Waist Patterns

(Wash Goods Department)
Decidedly uncommon for summery waist patterns to be selling at half when summer heat is fast approaching. Yet that's the situation here, on a manufacturer's sample line of ten dozen patterns—his finest, of course. These outdistances in beauty and value for price any we have had for a long time, they're advance styles, and perfect qualities.
Mercerized Persian lawns, with carefully-embroidered fronts in truly new designs, having insertions of good quality Valenciennes lace, some have collars and cuffs, others cuffs only, to match, and in each pattern there's ample material for making the waist.
\$2 patterns now \$1, \$2.50 patterns \$1.25.
\$3 patterns \$1.50, \$5 patterns \$2.50, and \$7.50 patterns \$3.75 each.
A few all-linen patterns are included, we've also a number of pure linen hand-embroidered fronts on special sale at one-third reduction from regular prices.

Silk Petticoats

Women with a love for fine apparel will find much to interest them in our display of silk petticoats. Dozens of distinctly different styles in every coloring that promises to be fashionable this summer, with black and white in abundance.
Special at \$5.00—Petticoats of heavy taffeta, in changeable effects, also plain white and black, cut amply full with wide corded ruffles and extra dust ruffles.
Special at \$8.00—Thoroughly well made petticoats, similar to the foregoing, but of slightly better quality material.
Various other styles up to elaborately beautiful creations at \$20.00.

Sumptuous Summer Silks

(Some of Them Below Value)
Prices, first, on a number of our black silks that will tempt many an economical woman to buy for future need-time, because black silks are always useable.
28-inch deep bright finish black taffeta, suitable gown quality, and regularly sold by us at \$1.25, now... \$1.00
41-inch black taffeta (note the width), a small lot to be closed out at... \$1.37 1/2
19-inch black brilliant Swiss taffeta; soft chiffon finish, for costumes and like garments; regularly 85c, now... 65c
36-inch extra weight bright lustrous black taffeta; extra good value at \$1.25; 250 yards, on Monday at... 95c

Fancy High-Grade Silks

Special showing of Rajah, the season's favorite pongee—the ideal all silk fabric for traveling suits, raglans and coats, 30 inches wide, all shades, \$1.25.
Colored taffetas, 19 inches, in shades of all sorts, but no white or black, good value at 75c, on special sale at 50c.
Seeded poplinettes, in lavender, reseda, goblin and cadet—new this season and sold by us exclusively. Very soft finish, highly lustrous, 24 inches wide, \$1.25.
Bagdad silk crash, new this season, an indescribably rich Jacquard figured pongee weaves for gowns. Shown in four colors—navy, myrtle, light gray and brown. 28 inches wide, \$1.25 a yard.
Lining satins, guaranteed to wear two seasons, 36-inch width, all colors, white and cream, \$1.00 a yard.

Distinctly Novel Pillow Tops

New pillow tops in rich, distinctive poster and tapestry designs, in a variety of patterns sufficiently broad to meet any fad or fancy of yours. They're just put on display by us, and are unlike any we've heretofore shown—they're the summer atmosphere about them, sea views, yachts, landscapes, etc., just the thing for beach cottages—38c to 75c apiece.
Beautiful rufflings to finish pillows with, at 75c to \$1.00 for 4 1/2 yards.

Imported Dress Stuffs at Cut Prices

\$2, \$1.50 and \$1 a Yard
Seasonable fabrics, too. Exceptionally rich suitings from English mills—\$2.50 to \$4.50 goods that we're going to clean up in three lots, at \$2.00, \$1.50 and \$1.00 a yard, because only a few short bolts and single pattern lengths are left. They come in gray mixtures and handsome shadow plaids and checks, 56 and 60-inch widths.
All sorted and placed on separate tables for your greater convenience in choosing.
Every day augments our showing of fancy gray mohairs, in checked or over-plaid designs.

Ribbon Remnants

At Half Actual Value
Women who know our ribbon stocks won't need a second invitation to select from practically the whole assortment at half price. We can't tolerate short lengths or "oddments," so every plain or fancy, wide or narrow piece that comes under the head of remnants, is going at half.
Less for Handkerchiefs
Prices almost, or quite, halved on fine handkerchiefs from our own splendid stocks. The grades for which you usually pay 75c and \$1.00 each, we've repriced today at 50c, and our regular 50c ones we've marked 35c—hem-stitched and neatly embroidered on sheer linen, with flowers around borders or in corners.

Neither of these new boats have been officially measured, and the water-line length of both of them is mentioned as being something less than twenty-five feet. The Monsoon's over-all length is 43 feet, and her beam is 6 feet 2 inches. The length of her stem from the keel to the hewn oregon pine, through which nine large bolts hold up the dead end mast, is 10 feet 8 inches. The hull is made of mahogany and the sail area is about 1160 feet.

Mischief's sail plan is 13 square feet larger, at present she has no spars or rigging, but she is expected to be neat and expensive. The Monsoon has 5 feet of headroom inside, and she is 17 feet long overall. Both boats are equipped with two bulkheads, one at each end of the cabin, as required by the new deed of gift of the Lipton Cup.

The Commodore Sinclair was present at Terminal Island yesterday and praised both the racers that were launched. He would like to see Fellows come out on top, but, as a yachtman, he thinks the Gardner design is the best of the two. C. H. Wedgewood was also seen. The Monsoon, is rapidly approaching completion and the spans are now ready. Mr. Wedgewood said that the launch would take place this afternoon, and that the sails for the new boat were now on the way from the lofts of McEllean, of Fair Haven, N. J., and the new craft is to be called the Skidoo.

YACHTS CHANGE HANDS.

Herbert Pease has sold the Venus to Bradley, formerly of the Marie's crew, and this vessel will sail in the name of Gregory has sold the schooner Nautique and will make one of Skidoo's crew, with Blanchard and some others who sailed in the Wedgewood. Secretary A. Lester Best will sail in the Monsoon with the Monsoon. Walter Clark will sail with Commodore Sinclair in the Venus. Mr. Mitchell, president of the Yacht Club, has purchased the Mischief from Walter Folsom said the winner of last year would race the winner whether she had a fair fighting chance. He will probably test the older boat in some way before giving her a new increased sail plan which he thinks she needs. Mr. Mitchell got most of his ideas from England and Australia and is a great admirer of the two nations' racing yesterday.

DREWER CALLS

ALLOWS FOR TOTEM CLUB.

RETAINS INDEPENDENT WORK-
MAN IN FACE OF THREAT.

Edwin Mathie, Who Employed Entire Union Force With One Exception, Refuses to Discharge Employee Whose Place Is Demanded and a Strike May Follow.

Another chapter of industry has made his declaration of independence, and as a result of his determination to manage his own business instead of allowing himself to be used as a tool by men, Edwin Mathie, president of the Mathie brewery, will probably have a walk-out on his hands today.

Ever since it was first placed in operation the Mathie brewery has been a union concern. With the exception of one man, a delivery wagon, every man on the job was branded with the totem. They were so because of this independent workmen, who did not desire to join their union.

Last week, after their union means to get the independent workman ousted from his place, the union men made a peremptory demand on Mathie that the driver be dismissed. They threatened all sorts of dire retributions if he refused. Boycott, walk-out and general strike against the brewery were the threats held over the head of the brewery's president.

Saturday night Mr. Mathie made final answer to the complaints of the union was "No." He declared that the man of whom complaint was made had been in his employ for a long period, was satisfactory, and that he would remain in the position if he chose to do so. He said that he did not think the unions could do as they pleased.

Akepe with astonishment that a brewery president could have the courage to refuse such demands, the unionists slunk away to hold a conference. As a result, it is said they decided to threaten walk-out, and if this is done it certainly will mean that the brewery hereafter will be an open shop.

RECALL MEETING A FROST.

Grand Total of Eleven Persons Attended and Funerealize Over the Dead Issue.

The recall mass meeting advertised for Monday evening at the office of Davis & Son, Avenue 15 and Pasadena avenue, resulted in a grand outpouring of eleven people, counting labor agitators imported from other wards.

Several citizens walked in to the place with the intention of attending the meeting were ordered out of the place, because some of the union agitators, who seem to have taken possession of the recall course, imagined they were invited to attend. In view of the idea of recalling Councilman Ford, Of the eleven who composed the "mass meeting" there were noticed French Drake, Lewis, chief of the notorious Secretary Murray, and Dodge, a Sixth Ward labor agitator. Even Leary, the agitator's candidate, did not turn up for the meeting.

The most enthusiastic of the gang couldn't give the recall course any life. There were but only 125 names to petitions had been necessary, and that 365 names were necessary.

They passed around some printed petitions and urged the signing of them. But the pitiful discovery was made that they did not bear the union totem.

The next morning, next Thursday evening at the same place. This doubtless will be in the nature of a funeral for the dead affair a decent sort of burial.

Billiard Players Ready.

NEW YORK, April 7.—A billiard tournament between the "Lions" and "Inc" will be begun in New York Monday evening and will continue afterwards and evenings until finished. Games will be played for cash prizes, the prize will be a \$1000 trophy. Among the

The image shows a vertical, high-contrast black and white photograph of a severely damaged and textured surface. The material appears to be a book cover or endpaper, characterized by deep, irregular creases, wrinkles, and a mottled, stained appearance. A dark, jagged, and irregular border runs vertically along the right side of the frame, suggesting a torn edge or a shadow from the binding. In the lower portion of the image, there are faint, horizontal, and mostly illegible markings that could be remnants of text or a barcode. The overall texture is rough and aged, with varying shades of gray and black dominating the composition.

LOOLOOS WIN SECOND GAME.

Pick Three Lucky Runs Off Busher Hopkins.

Tozer Hit Freely, but Keeps Swats Scattered.

Ross Startles Fans With a Spectacular Catch.

Los Angeles, 2; Oakland, 1.
Old Rip Van tore off a little over a yard of busher yesterday out at Chutes Park and tried to slip it to us when he thought we were looking across the street. We happened to be there but before we had assimilated the thing it was about all we could carry home. This package of busher, it called Hopkins and considering looks, he is about the most deceiving article one could find in any volume on Great Men I Have Never Met With.

Considering looks only, he amounts to about as much as what you get when you send a baby to the butcher's after your meat, but when it comes to a show down he is really what you imagine the river bed franchise must be worth after you realize that someone wants it. He fell down on himself the first two innings yesterday but after that he couldn't seem to use anything he had. In fact he was such a fierce light that he seemed to be a looloo reached second base after the second inning. In the fourth he struck out. Atz, McClelland and Eager in a row and all the bunch of them could do was to pick off two little singles in these final seven innings.

It might be remarked that he has a peach of a helper in Catcher Joe Hackett, who is about as fat as any man or woman would care to be in this world. He has a leg like a grand piano and an arm that can shoot a ball to second base so fast that neither Bernard nor Ross can steal a base and this means throwing some. He puffs like a porpoise does in books but is there with the speedy mit and keep on doing much in the line of stealing line.

Speaking of us, Tozer was in as pitcher and while touched up hard at times, managed to keep the swats scattered around so that the other fellows could not make much use of them. He was wild at times and seemed to have a special grudge against Piano Legs' brother, Long Legs Hackett, for he soaked him twice with the ball. On the other hand he fanned out Ool Rip Van twice, much to his disgust and also pitched good enough ball to win and that's all any team expects to do, except get a raise in salary.

The two features of the day were the three strike-outs by Busher Hopkins in the fourth inning and Ross' great running left-handed catch of a short fly back of short stop, which was hit by Piano Legs. He made a fine run for it at top speed and just did manage to grab it in time.

Another really great thing about the game was the enormous crowd of fans that saw the show, there being about 7000 present, according to Manager Morgan. Every seat in the grand stand and bleachers was full and all of the aisles held anxious rooters. There was not a large amount of rooting, however, for the hitting was light and nothing was as good as a two spot. The fielding was fast and while there were three errors on each side the majority of these were on hard chances and all of them could be overlooked, inasmuch as this was but the second game of the season.

Two singles, an error and a fielder's choice made Oakland's only run. Buck Franks opened the fourth round by fanning out. Then Piano Legs Hackett swiped one to left and was forced at moment later by Hopkins on a grounder to Atz. Franks then hit a double, threw wide to Dillon and Hopkins ran to second, scoring on Van Hatten's lucky drive over second.

For the Looloos Bernard opened the first with a swipe to right, went to second on a passed ball, to third on Franks' out at first and scored on Cravath's hit to center. The Busher Hopkins started off the second with a double to left and scored on McClelland's sacrifice and Eager's sacrifice and scored on Tozer's single to left. This ended everything for after that Hopkins lightened up and none of us saw a second base, except from a distance.

PORTLAND WINS AGAIN.
GAME A VERY SHOWY ONE.
(BY THE ASSOCIATED PRESS-P.M.)
FRESNO, April 8.—Portland won again today by superior hitting, holding Fresno to four hits, while Schmidt was rapped, for nine, four being bunched in the fifth inning and being responsible for two of the runs. Lispector scored all of Portland's runs with timely hits. Cartwright, the Fresno amateur being tried by Fresno at first, played a phenomenal fielding game and connected with Henderson for a three-bagger. The game was slow, but there were many spectacular plays, chief of which was a running catch by McHale and two one-hand stops of hot drives by Arrellanes. The score:

SEALS GRAB TWO.

CLOSE, EXCITING STRUGGLE.
(BY THE ASSOCIATED PRESS-P.M.)
SAN FRANCISCO, April 8.—Gleason's Seals scored a double victory today over Seattle. In the afternoon game the visitors opened promisingly, getting two men around on a couple of hits, and they held a lead of 2 to 1 from the second inning to the eighth, when the locals landed heavily on Hughes and scored three runs. After the second inning Hughes pitched superbly for the visitors. In the morning game at Oakland the play was more even, and the game being snapped by Seattle's one run in the seventh, made one three bunched hits. With the score 1 to 1 in the seventh, a brace of safe hits gave San Francisco the winning point.

Stockton Wins Easily.

LOS ANGELES, April 8.—The State League baseball season opened here today with an immense attendance. Oakland and Stockton were lined up against each other, Stockton winning by a score of 14 to 0. The game was one-sided throughout. Preceding the game there was an auto parade headed by a band, and upon the unfurling of the pennant captured by Stockton last year Assemblyman Beardslee made a speech, which was loudly cheered.

Alameda Shut Out.

SAN JOSE, April 8.—San José won the opening game of the season by defeating Alameda, 3 to 0. Emerson and Nelson were the opposing pitchers.

If Los Angeles only had Joe Gans and Frankie Neil here this morning all the pug champions of the country would be guests of the city, for we have all the others now.

FOR DOOR OF HOPE.

Founder of This Line of Rescue Work Closes Month's Campaign for Local Institution.

Jacobs take the count for resplendent dress goods. He looks like a nice boy, and says the only reason he comes to our beautiful little city is to look around for training quarters for Jimmy, who will take him to the Pacific Club. Manager McCarty has cut out the tickets and will hereafter save his money for the day he is to be a winner of the Attell-Nell fight a real solid gold belt, emblematic of the featherweight championship. Mac hasn't had the belt made yet, but took a day off yesterday and considered some designs that several makers kindly showed him. He knows how much this belt will cost, but it will represent real money, and Attell will be a sparring partner and he promises they can hit as hard as they can. Nell will not be down for about three days before he is to meet Attell.

Kid Herman is due today from Chicago and will certainly be welcomed here with pleasure by the fight followers, for the locals landed heavily on him if he did say he was "robbed" of the decision in that Herrera fight. He passed by the El Paso last night and we will know more about him when he gets here. Jack Sullivan goes East with his brother next week to try and arrange a fight with Jack O'Brien and will most likely be accommodated. He says he will not come back to the Coast until he is the middleweight champion. This looks like a long visit East for Jack, but if he does it won't hurt the local game any.

YOUNG MEN CAN NOT BE FOUND.

LOS ANGELES YOUTHS STRANGELY DISAPPEAR.

Howard Davis, Aged Sixteen, and John Murray, Aged Nineteen, Suddenly Vanish, and Police Can Find No Trace of Them—Parents Fear Foul Play.

The police were notified yesterday of the mysterious disappearance of Howard Stoner Davis, a sixteen-year-old

HOWARD STONER DAVIS.

boy who came here from St. Louis several weeks ago to visit his aunt, Mrs. E. M. Best at No. 2281 West Twenty-second street.

Despite the fact that the boy has not been seen at the Best home for the past two weeks, the police were not informed of his absence until Sunday.

The lad is 5 feet 10 inches in height and weighs about 140 pounds. He has brown eyes and dark hair and when last seen was dressed in a neat-fitting suit of dark clothes.

The lad comes from a good family in St. Louis and no reason is known for his sudden absence from his aunt's home. He was in the best of spirits and perfectly contented since his arrival here.

ANOTHER BOY MISSING.
Where is John Murray? That is what his worried parents want to know, and they have asked the police department to help them locate their son. They fear he has wandered into some bad company.

John Murray is the eldest son of Mr. and Mrs. J. Murray, who reside at No. 2281, Bird street, Brooklyn Heights. He is a lad of 19 years of age, almost 6 feet high, has light blue eyes and a light complexion.

For many months he has been in the employ of the Lewellyn Iron Works and on Friday morning he left his home as usual to go to his work. He has been absent since that time.

At the time of his disappearance he had no money except his carfare for the day. He wore black corduroy trousers, a black soft hat, and dark coat and shirt. He took nothing with him other than his daily habit.

The Murrays are certain that some evil has come to their son. They say that he had no reason to leave home, and that he appeared satisfied with his work. He is a good, steady boy, with no bad habits, and bears a fine reputation in the neighborhood where his parents reside.

MYSTERY UNSOLVED.

Identity of Man Whose Body Was Found Near Tropic Has Not Been Established.

The mystery surrounding the death of the man whose body was found near Tropic Saturday by two boys is still unsolved. The body was found in the undertaking parlors of J. R. Paul & Co. on Downey avenue, and Dr. Campbell will perform an autopsy today in an effort to discover, if possible, the cause of death.

There were many things about the case which might be interpreted as substantiating the theory of murder, but there are equally as many which indicate that the man committed suicide and destroyed every means of identification.

The only papers found in his pockets were blank, and the only thing which was found in his pockets was a gold watch with an Elgin movement on the inside of the case, of which was pasted the picture of a child of perhaps 4 years.

The watch is a handsome one, and taken in connection with the fact that the man was found in a place of quality, and the fact that his shoes were of the best make, the authorities believe he was in good circumstances when he died.

Did he seek a deserted spot, and there commit suicide, or was he murdered and carried to the place where he was found, and left by his murderers in the hope that their crime would never be discovered? This is the question which the authorities are trying to solve, but the deeper the mystery is probed the darker it becomes.

HOPPE WILL BE FAVORITE.

YOUNG CHAMPION BILLIARDIST STRONGLY BACKED.

Next Big Tournament to Include Seven Players Some of Whom Will Come from Across the Atlantic. "Wizard" Schaeffer Believed to Be Certain of Second Place.

NEW YORK, April 7.—Having witnessed the first American "triumph" of "Willie" Hoppe in a world's championship billiard match, enthusiasts are now beginning to discuss the next tournament, which includes seven players, some of them from the other side of the Atlantic, who will try for the championship at eighteen-inch balk line, two shots in.

As sure as death and taxes, "Willie" Hoppe will be the favorite. There is no logical reason why he should be, and there is every reason why he should be.

He has beaten both Vignaux and Slosson at eighteen-inch, one shot in, and while he has Schaeffer, Hooper, Slosson and Sutton to face in the coming tournament, as well as some players of presumably less speed yet sufficient ability to be very apt to make a good showing, most billiard devotees, as a rule, will expect Hoppe to triumph ultimately and hold the championship at both games.

It is natural to believe that Schaeffer will be second choice in the betting. True, the "Wizard" is not playing with the speed for which he was once famous, but still he is a very dangerous rival. His skill is such that he is likely to win games when least expected to do so, and no player will be safely out of the woods until the last point has been counted against the man who once held the championship of the world.

Cure, the French player, judged on the speed at which he showed in Paris and his work against Americans who have competed in his academy in the French capital, will very likely be third choice. He is a hard man to beat, as every player in the tournament is apt to ascertain as he goes.

After Cure will come George Sutton, who has been so long abroad that some people will have forgotten that he is an American. Sutton's game is much better than it was when he was a resident of the United States, and while he may not be the champion, he will at least be likely to push many of his competitors so hard that even some of the "top notchers" may take an occasional tumble.

Slosson will receive much support from a certain clientele in New York, who believe that the "Student" is likely at any time to beat the best in the world. Had he been able to vanquish Hoppe in the match this week, there is little question that Slosson and Hoppe might have been tied in popularity, although some of the experienced billiard veterans, even in that contingency, would still have supported Hoppe in the field, feeling that the youngster would be abundantly able to hold his own in mixed company.

Cutler and Morningstar will be the trailers in a book to be made on the possibilities of the match, and both men will be looked upon to furnish the surprises by defeating some of the principals from whom the greatest results are anticipated.

Presumably odds on the outcome of the tournament will be about as follows: Hoppe.....5 to 1; Slosson.....10 to 1; Schaeffer.....2 to 1; Cutler.....15 to 1; Cure.....2 to 1; Morningstar.....25 to 1; Sutton.....5 to 1.

THE FOLLOWING PROVISION CONTAINED IN THE CONSTITUTION OF THE STATE OF CALIFORNIA, APPLIES TO THIS COMPANY:

Section 3, Article XII: "Each stockholder of a corporation or joint stock association shall be individually and personally liable for such proportion of all its debts and liabilities contracted or incurred during the time he was a stockholder, as the amount of stock or shares owned by him bears to the whole of the subscribed capital stock of the corporation or association. The directors or trustees of corporations or joint stock associations shall be jointly and severally liable to the creditors and stockholders for all money embezzled or misappropriated by the officers of such corporation or joint stock association during the term of office of such director or trustee."

EVERY PARTICIPATING POLICY ISSUED BY THIS COMPANY CONTAINS THE FOLLOWING PROVISION:

"It is hereby agreed between the parties hereto that in making such dividends or division of surplus that no part of the premium payments made hereon, or the interest accumulating thereon shall be diverted to the benefit of stockholders; but, in case premiums are paid as herein provided, all such premium payments and interest accumulations, together with a due proportion of mortality profits accruing, upon participating policies shall, in proper proportion to the benefit of the owner of this policy, less an expense charge, which charge it is agreed shall not after the first policy year exceed the expense provided for in the gross premium; provided, however, that no mortality profit shall become due or payable until after the fourth year of its accrual, but that thereafter the same shall be paid while the policy is in full force and effect and during the period premiums are actually being paid thereon."

EVERY ORDINARY POLICY ISSUED BY THIS COMPANY CONTAINS THE FOLLOWING CLAUSE:

"This copy of application is printed for information of the insured and beneficiary, so that every part of the contract may be in their hands. Remember, also, that according to the By-Laws a Policyholder may examine the Company's books of account and vouchers during all business hours. This is an offer accorded by no other Company, but is recognized by this Company as a just right, and its exercise is earnestly solicited in order that you may keep informed of the Company's financial strength."

WHERE LOOT IS BURIED.

Oceanside Clew to San Diego Postoffice Robbery.

Two Robbers Said to Be in County Jails.

Sixteen Thousand Dollars May Be Recovered.

OCEANSIDE, April 8.—That the \$16,000 in cash and stamps stolen from the San Diego postoffice a few weeks ago is buried in one of the Southern California counties, and that two men concerned in the burglary are serving sentences in two of the county jails in Southern California, is the important information which has been gathered here and placed in the hands of Post-office Inspector Frank Stewart of San Bernardino, who is about ready to draw in the net.

Whether or not the swag is recovered depends somewhat on how close tabs Inspector Stewart has been keeping on the movements of the man who claims to know where the treasure is. This man, whose name is Hines, suddenly became "wise" a few days ago and left town without taking the trouble to let any one know his destination or his plans for the future. It is said, however, that W. R. Campbell of this city, who has been assisting Inspector Stewart, has Hines' quite definitely located, and within a short time he may be given opportunity to divulge information officially which he has already alleged to have imparted to a private client.

The only two men here who are familiar with the story which relates to the location of the San Diego postoffice booty are J. M. Jolly, postmaster, and W. R. Campbell, who has until recently been employed as bartender in H. Backin's saloon. Neither of them will discuss the matter. Postmaster Jolly says that he has turned over what information he had to Inspector Stewart. Campbell is understood to be banking on a generous slice of the \$16,000 reward offered by the postal authorities, whose delivery might be jeopardized if he made public what he knows. He rather will wait till the plunder and those concerned in securing it are well in hand.

However, the story is that Hines, at the time of the burglary, was working here for Hops Bros., florists. He was regarded as a hobo and wore the clothes of a hobo. After the San Diego postoffice had been looted, Hines began wearing better clothes. He worked only semi-occasionally, spent much of his time in lounging about the saloons and appeared to have plenty of spending money.

Hines is said to have approached Campbell with the information that he knew not only the men concerned in the San Diego burglary, but the exact location of the buried treasure.

His information was imparted to Campbell, accompanied by the proposition that he (Campbell) go "snags" with him in uncovering the booty, taking it to some safe place and then dividing the pot between them. The two men who made the break, he said, were in jail, one of them serving a sixty-day sentence for larceny in a Southern California county jail, believed to be at San Diego.

Just how Hines was attracted with the burglars' secret does not appear, although he claimed to have received it at first hand.

Campbell, instead of going into a co-partnership with Hines, turned the matter over to Inspector Stewart. This was last Tuesday. On Thursday Mr. Stewart was here making a careful investigation. He is said to have satisfied himself that the story looked plausible. Since then there has been considerable wire and mail correspondence between Inspector Stewart and Postmaster Jolly and Campbell, and the investigation is drawing to a close.

It transpires that the expense of uncovering the hidden treasure and bringing it here was estimated by Hines at \$60, which money he hoped that J. E. Goetz, a local merchant, would advance, but Goetz declined.

HOLY WEEK.

Many interesting services to take place at St. Vibiana's Cathedral, preceding Easter.

At St. Vibiana's Cathedral the many religious functions of Holy Week will doubtless attract large congregations daily, as has always been the case heretofore. The singing of the Tenebrae will begin on Wednesday evening at 7:30 p.m., and will continue on Thursday and Friday evenings.

On Holy Thursday there will be a solemn pontifical mass at 10 o'clock, and at this mass Bishop Conaty will consecrate the holy oils for the year. There will be fully thirty priests in attendance. The priests of the diocese receive from the bishop these holy oils for use in the parish, for anointing the sick, for baptisms and chrism for confirmations and ordinations. All oils remaining from the year just closed are destroyed the ensuing day.

the Tenebrae and a sermon by Bishop Conaty on "Christ Crucified." Include the blessing of the Paschal candle and the fire, the blessing of the font, and the singing of the twelve prophecies. On Saturday occurs the first Easter mass, at which is sung the first "Alleluia," an introduction to the joyous services of Easter day.

GRAND OPERA CASTS CHOSEN.

SINGERS WHO WILL APPEAR IN ONE-NIGHT BILL.

Magnificent Showing in Male Celebrities, but Deficiency in Prima Donnas, as Bella Alten is Down for Two Roles—Possibility of Second-Night "La Boheme."

The grand opera casts have finally been decided and are here announced, for the first time.

Incidentally, it is possible that a second performance may be given in Los Angeles. Charles Henry Meltzer, Conried's agent, who passed through here yesterday, has been hoping for this to come to pass, and has already written concerning it. "If it can be arranged," he said, "it will be a great success."

As far as the men are concerned, the list leaves nothing to be desired. We are to have the finest that the company affords, and the identical casts that illuminated the Metropolitan stage during the past winter.

Comment was made in The Times yesterday on the arrangement of the operas, as per the original press notices. Mr. Meltzer, happy to say, corrects this wrong impression. "Hansel and Gretel" will be played first. "Pagliacci" is where it belongs, at the close of the bill.

The cast of "Pagliacci" is especially noteworthy in the men singers. Caruso, as per original announcement, sings Carlo. Antonio Scotti, one of the two greatest Italian baritone voices in America, is cast for Tonio. Albert Reiss, a clever second tenor, will sing Peppino. Taurino Parvis, brilliant-voiced young baritone, who sang a principal role here last year, will play the small but nevertheless important part of Silvio, lover of Nedda—which inconsistent creature will be portrayed by Miss Bella Alten.

And for another joyous thing, fiery little Arturo Vigna will direct "Pagliacci."

"Hansel and Gretel" is a dainty little music-story, melodious version of the old fairy story of Hansel and Gretel, and their childish joys and sorrows in the enchanted wood.

The cast follows: Hansel, Jane Freund; Gretel, Bella Alten; Gerold, Martin Weed; the witch, Josephine Jacoby; the little and man, Miss Mulford; the little Dew man, Miss Shearman.

Otto Goritz, whose rich bass voice and powerful acting gave abundant life to Kluge, in our "Parsifal" presentation last year, will impersonate Peter, the single male role.

Nathan Franko will direct. This double bill cannot run under three hours, and if another soprano is substituted in the leading position in either composition, will form an ideal evening of opera.

It is to be hoped that Meltzer's endeavor for "La Boheme" will be successful. In the past Los Angeles has been "capacity" houses. There is no reason now, as far as the city is concerned, with its additional wealth and many more music lovers, for cutting our stipend in half.

Friday morning at 8 o'clock will occur the ceremony of unveiling the stations of the cross, and this will be followed by the mass of the pre-sanctified. Good Friday is the only day of the year in which no host can be consecrated, hence the consecration for this sacrament occurs the day before, and thus the mass receives the name it bears.

Friday afternoon at 3 o'clock there will be the stations of the cross, and Friday evening occurs the singing of the Tenebrae.

At the Southern Pacific offices late last night word was received from Tehachapi that no further trouble is anticipated, and the company expects to have trains running regularly today.

All day yesterday passengers were delayed around the obstruction. Trains were delayed, and communication was continued with difficulty. Every available man that can be used on the job has been hurried to the tunnel, and last night the largest crew yet employed on the slide worked until morning when the relief gang took the places of the tired laborers. Those who have charge of the work say the task of repairing the tunnel, in order to obviate future danger, is tremendous. The present effort is to provide a temporary relief in order to establish communication with the other side of the big slide.

WATER FOR THIS CITY.
Purchase at Ventura Reported to Be Part of Project for Artesian Supply for Los Angeles.

(SPECIAL CORRESPONDENCE OF THE TIMES.)
VENTURA, April 8.—Mr. Dr. H. H. Oxnard, John Burson of Hueneme, and Frank Smith and J. H. Lapham of Los Angeles, have just completed the purchase of 300 acres of ocean front near the town of Hueneme, the land lying between the town and the light-house on Hueneme point.

It is given out that the purchase is preliminary to a gigantic scheme to supply the city of Los Angeles with artesian water. It is known that the tract overlies a fine stream of water whose knowledge say that an immense underground river empties into the ocean under the land. It is a fact that just off shore at that point there is a great body of fresh water arising to the surface.

The purchasers state that it is their idea to sink a number of artesian wells on the land and that the water from them is to be pumped to a gigantic reservoir on top of the mountains at Chatsworth tunnel, and from this reservoir to be conducted into the city of Los Angeles for domestic use in competition with the Owens River supply.

Those who know best say the purchase of the land was made in the interest of the Santa Monica and Malibu Railroad Company and that the land is to be used for the erection of suitable buildings for a seaside resort which Mr. Harriman, or Mr. Huntington or Mr. Gould, or whoever is behind the Malibu-Burton Railroad plans, will erect there when the road reaches Hueneme.

BUSY WEEK FOR MASONS.
Class of Two Hundred to Be Initiated in the Various Degrees of the Scottish Rite.

This will be the busiest week in the history of the Masonic fraternities in Los Angeles. Beginning this forenoon and continuing until Friday night, will be held what is officially designated as a special reunion of the coordinate bodies of the Ancient and Accepted Scottish Rite sitting in the Valley of Los Angeles.

A class of nearly 200 members will be initiated into the mysteries of the various degrees of that branch of Masonry from the first advance step which a Master Mason takes, through the various grades to and through the thirty-second degree. Each day throughout the afternoon and evening, the classes will work, and the week of labor will be concluded with a banquet on Friday evening.

The conferring of these degrees is not a matter of fun. There will be no "horse play" or riding the egoist, but the ceremonies will be of a most impressive character, and will be conducted by some of the best-versed Masons in this jurisdiction. All of the work will be done under a special dispensation.

MESSAGE BY THE BLIND.
In Japan They Alone May Give It—Are Taught in Special Schools.

Blind Men's Flute.

All visitors to Japan, says a writer in the San Francisco Bulletin, will recall the sad, soft tones of the flutes at night, on the streets, in country lanes, in forest glades and on the mountain paths. It is a melodious and plaintive tune, always the same, and it is heard only when night has enveloped these places in her shadowy folds.

It is the flute of the blind Amma San, the message man and woman. From old men, hoary with age, to young girls in their teens, there they wander, the blind people of Japan. By law, strictly enforced, they must be blind, either from birth or through some fatality during their lives. Thus they gain an honorable living.

With perfect knowledge, gained by years of study in schools specially provided for them, they knead, twist and string every nerve, sinew and tendon in the human body. In two hours time they will create a new being, masterly in their manipulation of the frail traveler, the exhausted debauchee and the nervous hypochondriac, of the woman suffering from neuritis, sick headache or the weaknesses of a languid mind and body.

They will take charge of your body from the head to the soles of your feet, and when their task is completed, they leave behind them a lingering sense of entire comfort, of placid well-being, which makes you very soon call them back again. Some of these girls are pretty and attractive, and their helplessness gives them an additional charm. Their usual charges are forty sen per hour, in rural districts much less.
